EXPERIENCE

GKM IT, Udaipur
1 year

QA engineer

During my one-year tenure at GKMIT as a Junior QA Engineer, I had the opportunity to immerse myself in various aspects of the software development lifecycle, particularly focusing on quality assurance and testing. My role involved working closely with cross-functional teams to ensure the delivery of high-quality software products.

English, **Hindi**

PROJECTS

Plant Disease Detection

- Plant disease detection systems hold great potential for revolutionizing plant health management. They offer a non-destructive, cost-effective, and scalable solution for early disease detection, enabling sustainable agriculture practices and ensuring food security.
